

Contract Miner of the Year

Recognising excellence in contract mining, engineering, projects, and services.

Please list the project name that is the focus of the nomination (as it should appear in marketing and communications).

When were the project or services delivered?

1. Explain the services provided as part of the contract, and how these benefited the mining operation involved. (20 points)
2. Provide examples of any measurable improvements as a result of the contract, i.e. increase in safety, increased return, reduction in overall costs. (50 points)
3. Provide examples of any new or returning business as a result of the project's success. (30 points)
