

Safety Advocate of the Year

Recognising an individual that is committed to ensuring safety – either for an individual site or company, or for the mining industry as a whole.

When did the individual become involved in safety?

1. Provide background on the individual's role within the business/industry and explain any initiatives or programs the individual has created or led to improve safety within the industry or their workplace. (30 points)
2. Provide examples of measurable success as a result of these initiatives or programs. (40 points)
3. Explain how the nominee plans to continue to improve upon results and advocate for safety. (30 points)
