

Excellence in Minerals Processing

Recognising a mine, company, or project that has developed or carried out an innovative or unique minerals processing program that increased efficiency, productivity, or safety.

Please list the program name (as it should appear in marketing and communications).

When was the project implemented?

1. Explain how this project differs from others available across the industry. (40 points)
2. Provide examples of measurable success that the program has achieved since implementation. (60 points)
